

NEW Path to REJUVENATION

Dr. Salameh's NEW Medical Grade Skin Care Line

"My Goal is to empower patients to feel good in their Skin"

Dr. Salameh's main focus is to offer an integrated service that combines the most advanced Aesthetic Techniques, Surgical and Non-surgical procedures, innovative Skin Care products and a superior artistic eye to achieve the very best and most natural results.

Dr. Salameh's state of the art facility provides a warm, elegant and accommodating environment to maximize patients comfort and well-being. Dr. Salameh is one of the few board certified plastic surgeons who performs In-Office surgeries including liposuction under local anesthesia. Patients stay fully awake during their procedures and walk out of the office shortly after with minimal recovery.

Inspired by his integrated service approach and natural results, he dedicated a considerable amount of time and effort to develop what he believes to be a perfect path to rejuvenation.

Dr. Salameh NEW medical grade skin care line combines the most effective, scientifically proven, anti-aging ingredients to maintain skin health, prevent visible signs of aging, and correct the appearance of previous damage. Each of the FDA regulated skin care products has been developed based on selective combinations and optimal concentrations of active

ingredients to penetrate the deeper layers of the skin to provide utmost benefit to his patients.

"A great surgery outcome is the result of understanding patient needs, effective teamwork, attention to details and commitment to excellence"

The cutting edge skin analysis system at Dr. Salameh's facility offers advanced skin diagnosis at both the epidermal and dermal layer using highly accurate scientific visualization to help patients determine which skin care products are appropriate to their skin type, conditions and concerns.

Dr. Salameh is passionate about natural and elegant cosmetic rejuvenation of the face, neck and body. He combines excellence in surgical technique and artistry to enhance each patient's natural beauty.

Dr. Bernard Salameh, founder of Salameh Plastic Surgery and Skin Care, is a Double Board Certified Plastic Surgeon who trained in top-notch universities including the IVY league Yale University and the prestigious Vanderbilt University.
